Director's Desk

Kreative Kidz is an academic based environment with many incentives and rewards. Participants are rewarded based upon BAG...**B**ehavior, **A**ttitude, and **G**rades. We encourage our youth to put forth their best effort in all that they do. Our goal is to **ENRICH, EDUCATE, EMPOWER, and ENCOURAGE** each participant.

Our environment is also very structured and disciplined. Each participant is required to conduct themselves in a manner that reflects good character, self-discipline, and behavior that is not disruptive to others.

We reward those participants who accept the challenge of being a Kreative Kid. We look forward to many participants enjoying future rewards!

In life there are no make-up exams! Choose carefully!!

Challenging Kids to Make Something...

Helping Get Better Grades...

Parents can have a tremendous impact on how a child handles school and takes tests. The goal is bringing the grades up to A's and B's, right? Here are some ways parents can help kids improve their study habits and make studying as enjoyable as it can be. That, in turn, will make all the difference at test time.

- Schedule study time and stick to it.
- Encourage participation in study groups.
- Have reading skills tested.
- Define the home study location.
- Can your student take good notes?
- Develop the memory with mnemonics.

A'aniyah Lossa

“M. Childs” Award

For the month of September 2018, we have a very special participant who exhibits good behavior and displays a positive attitude along with excellent academic performance.

A'aniyah Lossa is 5 years old and is in PreK. A'aniyah likes the color purple and she likes to play with her dolls. She likes to watch Team Umzoomi and her favorite movies are Trolls and Frozen. A'aniyah likes math and eating french fries. She want to be a doctor when she grows up and A'aniyah's role model is her mommy. The best things about Kreative Kidz that A'aniyah likes is "Fun Fridays".

Congratulations! Each "Kid" of the Month will receive a \$5 gift card from Chick-Fil-A.

Got Jokes?

The turtle took two chocolates to Texas to teach Thomas to tie his boots. How many T's in that?

What animals follow everywhere you go?

In a one story house, there is a pink desk, a pink computer, a pink sofa, a pink table, a pink TV, pink remotes, pink plants, everything in her house is pink. What color are the stairs?

Effects of Using Earphones...

One of the most serious side effects of using earphones while listening to loud music is **hearing loss**. People who listen to music at volumes exceeding 90 decibels, can suffer temporary loss of hearing. Sounds in this range can eventually cause permanent hearing loss, especially to teenagers who wear their earphones for long periods of time.

Regular usage of earphones also enhances the growth of **bacteria** in the ears 10 times more. Tips and warnings:

- Limit the usage of earphones
- Take 5 minute breaks every hour
- Don't share earphones

Don't use earphones that are directly inserted into your ear canals because this increases the chances of hearing loss.

What's the Issue?
