Role Models...

"Tell me to do a task and I might comprehend, but show me how to do it and I'll emulate you." I've found that this is an important step in the development of our children. As community and parental role models, we are critical influences in a child's upbringing and future success, based on the amount of quality time we spend with our children.

We as parents are to provide moral, ethical, and responsible teachings to our children.

So, let's band together as community leaders and parents to demonstrate for our youth the behavior and example worthy of their emulation.

What's The Issue...?

Child Safety in the Car...

Children under 12 years of age should not ride in the front seat of a vehicle. Buckle all children ages 12 and under in the back seat. Airbags can kill young children riding in the front seat.

Never place a rear-facing car seat in front of an airbag. Buckle children in the middle of the back seat when possible, because it is the safest spot in the vehicle.
